 - b. Number 1 need is money. \$10,000 covers about 38 kids (A grant is available for one district school for this amount.)
 - c. They are mandated by law to do their own photo vision screenings
 - d. Club asked if glasses from the donations to San Diego Gift of Sight to match with the students' needs?
 - e. After a student gets a prescription (after a screen & refraction test), then we can try to match glasses with a student.
 - f. They are also looking for 4 to 8 volunteers to help herd the kids on photo screening days. Bilingual a plus for when contacting Spanish-speaking parents.
 - g. A pilot program is suggested with La Paloma Elementary, 55 students total.
 - i. Some students do have insurance, some do not.
 - ii. Estimated amount \$10,000 to do the exam, prescription, and glasses.
 - h. Can the Lions Club read-outs result in getting glasses for the students?
 - i. From what I'm understanding from Norm, a more thorough screening can be done with Lions Club WITH an optometrist on hand to write out the prescriptions. THEN send them out to the Beaumont facility to match for glasses, and THEN order out for the ones that need to be custom made.
 - j. Photo screenings > refraction screenings > prescription > glasses
